(54) Title: ELECTRONIC DEVICE AND METHOD OF ENABLING TO ANIMATE AN OBJECT

(57) **Abstract:** The electronic device of the invention comprises a processing unit capable of determining a first part of a new animation of an object on the basis of at least one position of the object in a first animation and on the basis of a first part of a second animation of the object. The processing unit is further capable of determining a second part of the new animation on the basis of a second part of the second animation. The method of enabling to animate an object comprises a first step of enabling to animate the object during a first period on the basis of at least one position of the object in a first animation of the object and on the basis of a first part of a second animation of the object. The method comprises a second step of enabling to animate the object during a second period on the basis of a second part of the second animation of the object.

BE, BG, CH, CY, CZ, DE, DK, EE, ES, FI, FR, GB, GR, HU, IE, IS, IT, LT, LU, MC, NL, PL, PT, RO, SE, SI, SK, TR), OAPI patent (BF, BJ, CF, CG, CI, CM, GA, GN, GQ, GW, ML, MR, NE, SN, TD, TG)
